Tasks 1 of 1

Tasks by Severity Class

Name ↑

Immediate scan of IP 10.0.2.3

(Applied filter: apply_overrides=0 min_qod=70 sort=name first=1 rows=10)

Task Wizard

Quick start: Immediately scan an IP address

IP address or hostname: 127.0.0.1

The default address is either your computer or your network gateway.

As a short-cut the following steps will be done for you:

1. Create a new Target
2. Create a new Task
3. Start this scan task right away

As soon as the scan progress is beyond 1%, you can already jump to the scan report by clicking on the progress bar in the "Status" column and review the results collected so far.

The Target and Task will be created using the defaults as configured in "My Settings".

By clicking the New Task icon  you can create a new Task yourself.

Cancel
